Shoe Addicts Anonymous by Beth Harbison

In this entertaining novel set in Washington, D.C., three very different women are brought together by a shared passion: shoes. They meet once a week to trade Manolos and Maglis, but soon they rely on each other for much more. Lorna, a debt-ridden waitress, founded the group to curb her destructive shopping sprees. Helene, a senator's trophy wife, attends to escape her loveless marriage and the banality of high-society life. Sandra, an overweight phone-sex operator, hopes the group can help cure her agoraphobia. They're joined by Joss, a young nanny, who doesn't care about shoes but needs a place to avoid her demanding boss. Readers will root for these four plucky women.
