

# CBD & Medical Marijuana, an Introduction

**Saturday, November 23, 1-2:30 pm**  
**Main Library**

Interested in CBD but uncertain if it's right for you? Curious about the medical marijuana news headlines and wondering what it is used to treat? Join us at Main Library to find the answers to these and other questions! Dr. Karin Cseak, of Family Holistic Health in Cuyahoga Falls, will be with us to answer your questions about CBD, medical marijuana, and their uses. Learn the differences between these substances, the legal complexities surrounding them, and the medical ailments for which they are used. Find out how one acquires a medical marijuana card, where they can be used, and what medical diagnoses authorize the use of medical marijuana. Marijuana and hemp have a rich tradition of use in the medical field that continues to be backed by modern research. Stop in, and get the information necessary to make an educated assessment of these plants' value in your own life.
