

# E-library Resources

**Learn how at the next class!**

Science & Technology E-library classes will meet in Computer Lab 2 on the Main Street Level.

## Connecting You: E-library Resources

**Tuesday, March 6, 6:30 pm**

Discover the vast storehouse of information available in E-library resources, and how to conveniently access them. Learn a language, search for consumer reviews, fix your leaf blower, conduct a mad scientist experiment, find a new career, or write your last will and testament. There's no limit to what you can do, once you make these resources part of your life.

## Health Info 101

**Saturday, April 28, 10 am or Tuesday, May 22, 6:30 pm**

When it comes to finding quality information about health and wellness, you can do much better than Google! Come to our class and discover the variety of health information resources available at the Library and online. Taught by one of our Consumer Health Information Specialists, the topics covered will include:

- Evaluating health information resources
- Top websites
- Best databases
- Prescription drug information resources
- Complementary and alternative medicine (CAM) resources
- Finding information about physicians

## Connecting You: Better than Google

**Saturday, May 12, 10 am**

Use the E-library resources to discover more accurate information than general Internet searching. Explore reference e-books, magazine and journal articles. Be ready for your next research project!
